

## Are you interested in reducing your costs ?

Business Cost Consultants are working with Scotland Food and Drink to help reduce costs. Here are some important points to consider :

1. **We are totally independent.** Because we do not take commissions from any suppliers we have no conflicts of interest. We only work for you.
2. Because we do not take commissions and we advise clients when to purchase their contracts in advance of the renewal dates, **we guarantee to get you the lowest prices in the markets.**
3. **For over 20 years** we have been helping companies, organisations and charities to reduce their costs.
4. **We are Scottish based and owned,** but have clients from Shetland in the north to Cornwall in the South.
5. **We specialise in utility costs** such as gas, electricity, water and telecoms (both fixed line and mobile).
6. We can also help you **if you are in a dispute with a utility supplier.**
7. We are currently offering a **free desktop study for dairy farmers in Scotland.**
8. **That will identify potential savings on your utility costs** and tell you the cost of our services.
9. **All you need to do is to provide us with at least three bills** for each of your gas, electricity and water supplies.
10. We will then report back to you with the facts and figures. You are not obliged to use our services. If you do, **normally the savings are more than twice our fees.** Before you sign an agreement with us you will know what savings to expect and exactly how much you will pay us.

If you would like to learn more about our services and to see what others have said about us, please see [www.businesscostconsultants.co.uk](http://www.businesscostconsultants.co.uk) or call us on 0141 226 8525.
