

Collecting your excess colostrum is quick and easy!

For 22 years we have been dedicated to manufacturing the best colostrum products in the world. And now we bring our proven colostrum replacers to you. As a source of this new product line we are looking for dairy producers, just like you, to collect your extra colostrum.

There is no minimum amount of colostrum you are expected to deliver. And we only ask for your extra colostrum, you decide how much you collect.

Why collect your colostrum?

- ◆ Make your unwanted product a valuable product.
- ◆ Stop worrying about plugging your gutter system.
- ◆ Contribute to the world's best, all-natural colostrum replacer.

How does this work?

- ◆ Once we take your information, we provide you with a freezer, pails and lids.
- ◆ You collect and freeze your excess 1st and 2nd milking colostrum from healthy heifers and cows.
- ◆ Pails with frozen colostrum are picked up frequently and replaced with empty pails.
- ◆ You are free to interrupt or terminate supply any time.

What do we do with your colostrum after we collect it from you?

All SCCL colostrum is:

- ◆ tested for quality
- ◆ pooled for consistency
- ◆ heat treated for safety
- ◆ spray dried for stability
- ◆ tested for efficacy

The final product is a proven colostrum replacer for calves. Available in the UK!

If your dairy is located in...

- ◆ Dumfries & Galloway
- ◆ North Lanarkshire
- ◆ South Lanarkshire
- ◆ Scottish Borders
- ◆ Midlothian
- ◆ East Lothian
- ◆ West Lothian
