herringbone parlour system**

Why did you contact the Hub?

At one of our busiest times of the year, a member of my milking team became unwell. I quickly contacted Stuart at the Scottish Dairy Hub to see how he could help me. Shortly after, I welcomed Natalie to my team, who is a capable and conscientious worker.

“Stuart has a great number of contacts in the dairy industry which meant he could help me straight away.”

How has the Hub helped you?

The Hub was crucial to allowing me to continue running my business during a time when I was at my busiest. Knowing I could call the Hub was a great relief, Stuart will always do his best to signpost me to the most relevant information.
